ADMISSIONS PROCESS

The following information will help you understand the next steps in the admissions process for the upcoming 2027-2028 school year. What happens next?

Early Admissions (Grades 1-12) September 1st - November 30th, 2026
Any applications submitted after the November 30th deadline will be reviewed in early-March, pending availability.

Once we have all required items submitted to complete the applications, all new applications are sent down to the campus based admissions teams.

All new applications (Grades 1-12) will begin to be reviewed by the admissions team early-December. Final decisions will be sent out via email on February 15th, 2027.

All new Kindergarten applications will begin to be reviewed mid-September. Final decisions will be sent to all applicants via email on December 15th, 2026.

All new Preschool and Junior Kindergarten applications must be submitted by January 15th, 2027. Final decisions will be sent out to all applicants via email in early-Spring, 2027.

Next steps:

- All applicants going into grades 1-12 are required to come to LCS to complete a literacy and numeracy assessment.
- If we are able to move forward with your application, you will be contacted again by the campus secretary to book an interview time with one of our principals.
- Interviews will initially take place in January for grades 1-12, and in November/December for kindergarten.
- After the interviews, the admissions team reviews all information
- You will be informed of their final decision via email by December 15th (Kindergarten) or February 15th (Grades 1-12)

Please note that there are many factors that the admissions team considers when offering enrollment (space, ability to meet the student's needs, class composition impact, etc.). The team is trying to assess needs and best fit, while balancing capacity. It is not a task they take lightly; they handle each application with great care and attention. Many eyes are on each application to make a final decision.

Please feel free to call or email us anytime if you would like to know the status of your application.
